Unhen samjhaiye ki Maithili , Hindi ke sath sari uttar Bhartiya bhashayen, apne har sans ke liye Sanskrit per ashrit hain.

Uttar Bharat ki sari bhashayen Sanskrit ki Dependent language, yani ki ASHRIT BHASHA hain. Ye sari hashayen apne akchhar, dhwani, lipi, byakaran aur shabdkosh ke liye Sanskrit par nirbhar hain.

Bhag ke jayenge kahan ? Arabic, Persian, Chinese, English ke sabdon ka painch-udhar lekar, bhale hi Urdu ke tarah khichri paka len, par Sanskrit ke mul anna ko us khichri mein se nahi nikal sakte.

Maithili is not a Standard language. Since our forefathers spoke, wrote and thought in Sanskrit, I wish to return to my true mother tongue Sanskrit.

For various reasons, in the last two thousand years, we have been confused about many things including our languages.

Since we could not maintain a Standard Sanskrit language, as it was at Panini's time, we have started speaking many degraded substandard, (defective Sanskrit) North Indian DEPENDENT LANGUAGEs. List is long, but I am including here major ones such as Maithili, Hindi------Bengali, Marathi, Punjabi etc.
